## SOME MEN REST ON COLUMBUS DAY

LOCAL BANKS AND COUNTY OFFICES ARE CLOSED TODAY, BUT ALL OTHER ESTABLISHMENTS ARE OPEN

This is Columbus Day, and in commemoration of the man who is accredited with discovering America all the local banks and county offices are closed.

But all working men—those who sell groceries, and clothes, and who build houses and haul grain and manufacture newspapers, don't get any rest on a day like this. They are working in commemoration of the man who Joaquin Miller says "sailed on, and on, and on."

Brighten up the home these cold, snappy evenings with music. The best in records can be heard at Shepherd's, the Record Headquarters, next door to postoffice. 4-4

THE ROYAL TAILOR, CHICAGO-NEW YORK

## Stand Out from the Crowd - get that Royal Tailored Look!

**M**ERCHANT Tailored Clothes are clothes that express the personality of the wearer. They are faithful reflectors of your taste, your selective ability, your partialities and penchants.

A custom-tailor dressed man is not just one of the apples in the barrel, or one of the colorless privates in the motley ranks. *He stands out*; his clothes lift him apart

from the drab background of mediocrity.

Some men futilely strive thru a lifetime to discover the secret of appearing smartly dressed. They fail - because they do not try the Custom Tailor Way.

And the Custom Tailor Way is best exemplified by The Royal Tailor Way - to the perfect harmony of your body and the solid comfort of your purse.

Royal Tailoring means the omega word in customtailored suit or overcoat at \$20 \$25 \$30

## Movable School Will Be Here for Four Sessions

Klamath county is to be visited by the movable school being sent out this fall by the Oregon Agricultural College to many rural sections of the state. The school will be here on the following dates: October 30—Plevna. October 31—Mt. Laki. November 1—Merrill. November 2—Bonanza. Professor E. B. Pitts will have

charge of the work in livestock and dairying. Professor Pitts will be remembered as the lecturer on these subjects at the farmers' short course in Klamath Falls a few years ago. Professor John Larson will lecture on soils and crops, and Miss Anna Turley will direct the work in domestic art and science. These lectures and demonstrations will be opened to everyone, and will be free. They will be held from 9 to 5 o'clock each day.

better say if he wanted to be re-elected. Making all due allowance for the democratic effort to put the platform of 1912 into effect, can any voter in 1916 ignore the following array of cold and icy facts? The democrats said in 1912 that they would reduce the cost of living. All necessities and staples are now higher than ever before. We do not blame the democrats for continually making idle promises. For instance, how about the definite promise to enforce economy and trim down appropriations? They have been in the pork barrel up to their elbows. The democrats tinkered the tariff, and hard times followed. The present abnormal prosperity has resulted from a flood of European war orders. The war will end in 1917 or 1918. Europe, desperately in need of money, will make an unprecedented fight for foreign trade. The United States will need a protective tariff as never before. Does any fair minded voter with a memory a foot long believe we will get it if the democrats are in power? The democrats have yielded to temptation and become sectional. They have slathered political appointments and public funds on a small percentage of voters living in the

South. The present administration does not represent the centers of population and production. Mr. Wilson has given us a shabby cabinet. He has got small caliber men in big calibre jobs. Two of his appointments have been national calamities. The men in Mr. Hughes' cabinet will command respect at home and abroad. Finally, I am back in the republican camp and working for republican success this year because I believe the republican party, since its recent house cleaning and readjustment of internal control, is much better qualified than the democratic party to take charge of governmental affairs and direct them safely and wisely. I have not surrendered former beliefs and I am reasonably sure that the world is going to get better every year instead of retreating to the bow wows. When a man has just one round of ammunition to shoot, he can't afford to stand off on a hillside and shoot into the air. Progressives must realize the fact that this year there are only two contending parties, and every voter must either make a choice or retire to the deep woods. This is no time for grieving over what might have been. The choice for every progressive to do is to plan and vote for Hughes.
